

My daughter really enjoys education at Ancora and has nothing but wonderful things to say about the lessons she has.

From a parent in relation to her daughter attending education sessions at Ancora House School:

I can't tell you how lovely this is to hear.

Something I never expected to read, as I had lost all hope in her engaging in education.

Thank you so much for the update and the hard work you have put in with her.

Thank you for all your work helping to get a place (at a specialist residential school) for my son. Now he just keeps saying he is looking forward to the next chapter of his life. I don't know what we would have done. Thanks to all the team for all they have done with him.

A phone message to Ancora House School:

'Mum' wanted me to feedback how pleased she and her son are with the care, teaching and overall experience he has had in Education.

She was extremely complimentary of the nurturing support which allowed him to engage in his learning, and how much he has enjoyed his A level Maths, Biology and Chemistry learning here.

A message regarding SEND and the EHCP process:  
I've received my son's draft EHCP and I have sat down and read it thoroughly. As far as I can see it is excellent and covers everything he needs according to everything we discussed.

I also wanted to say, thank you so much for all the tireless and detailed work you have put into this process. The draft is full of vital detail and really does seem to capture the essence of who he is and his needs. I was almost in tears reading it (in a good way!). I am so grateful and thankful to you.

A message from a parent with regard to the information Ancora House School supplied for her daughter's new education setting:

The education support plan is really great. Thank you. It is so clear and accurate, with really good interventions suggested.

You have really been instrumental in achieving this outcome for my daughter.

A phone message to Ancora House School:  
'Mum' called to say that her son has done really well since discharge. He carried on with his City and Guilds and is now at university studying animal sciences. He still needs help but she is very proud of him and wanted us to know.

Parental feedback regarding positives of education at Ancora House School:

- Great communication with parents
- Support with the EHCP process
- Reintegration of young person
- Fantastic support re extra-curricular activities in the community when discharged
- Ancora House School is a fantastic resource which my daughter really benefitted from

Thanks for all you do. You have made such a difference.

Phone message from a parent:

'Dad' reported that he doesn't know what he would have done without our support. He said that without our help, his daughter would not have got into the school that she needed to be at to meet her needs. He asked that his thanks be passed onto all Ancora education staff for the great work they did with her.

We just want to say how grateful we are for the education at Ancora.
